

What is Project Jobs Fit: The DOLE 2020 Vision?

Overall Objective:

To identify the preferred skills in priority industries in the region for the next five (5) years.

Project Jobs Fit: The DOLE 2020 Vision
Summary Report of Regional Consultation held in 2010
Region VI

Priority and Emerging Industries

Priority Industries:

- cyber services (call center, BPO)
- tourism (health, wellness & medical)
- hotels and restaurants
- agribusiness and fishery
- construction, and
- wholesale and retail trade.

Project Jobs Fit: The DOLE 2020 Vision
Summary Report of Regional Consultation held in 2012
Region VI

Priority and Emerging Industries

Emerging Industries:

- renewable energy- bio-fuel
 - real estate development
 - transport & logistics
 - mining (small scale incl. quarry)
- 

Identified KEGS with their Corresponding Skills Requirement

KEGS	SKILLS REQUIREMENT
Cyber-Services	Call Center Agents/Customer Service Agents Engineers Accountants Personal Assistants Virtual Assistants Researchers Programmers
Tourism (Health, Wellness & Medical)	Massage Therapist Spa Therapist Doctors

Identified KEGS with their Corresponding Skills Requirement (based on PJF Regional Consultation Region VI)

KEGS	SKILLS REQUIREMENT
Hotels and Restaurants	Cooks Service Crews Butlers Reservation Officers Tour Guides
Agribusiness	Aqua-culturist Entrepreneur
Construction	Construction Workers Heavy Equipment Operators Heavy Equipment Mechanics Pipe fitters Riggers

Emerging Industry in Region VI

There are emerging industries that surfaced along the conduct of consultation. However, emerging industry may not be really new industry in a strict sense. Some industry may not be the employment drivers five or ten years ago but at present time it has a potential to be one making it an emerging one. Below are the emerging industries that surfaced in the regional consultation with the stakeholders.

Emerging	
Industries	Skills Requirements
Renewable Energy & Bio-fuel	Chemist Chemical Engineer Mechanical Engineer Electrical Engineer Quality Control Engineer Checker Loader Farm Workers Drivers Maintenance Workers Office Workers
Transport and Logistics	Forklift Operators Gantry Operators Drivers (for trailers or long haul) Safety Engineer Crane Operators Backhoe Operators Maintenance Mechanics

Emerging Industry in Region VI

There are emerging industries that surfaced along the conduct of consultation. However, emerging industry may not be really new industry in a strict sense. Some industry may not be the employment driver five or ten years ago but at present time it has a potential to be one making it an emerging one. Below are the emerging industries that surfaced in the regional consultation with the stakeholders.

Emerging	
Industries	Skills Requirements
Real Estate Development	Building Managers Construction Managers Mechanical Engineers Electrical Engineers Civil Engineers Architects Construction Workers Foreman Masons Welders
Mining (small scale)	Loaders Surveyors Miners Geodetic Engineers Mechanical Engineers Geologist Chemist Safety Engineers Lab Technicians Drillers Blasters

Availability of Skills

The stakeholders consultation in Region VI, particularly the academe, have expressed that the skills needed in the identified KEGs could be met and supplied by the academe and training institution except for some skills which requires specialization which they admittedly identified as hard-to-fill:

KEGs	HARD-TO-FILL
Construction	Heavy Equipment Operators Safety Officers
Renewable Energy & Bio-fuel	Chemist Chemical Engineer
Transport and Logistics	Gantry Operators Crane Operators Backhoe Operators Safety Engineers
Mining	Geologist Loaders Surveyors Miners Geodetic Engineers Mechanical Engineers Chemist Safety Engineers Laboratory Technicians Drillers Blasters
